

Press Release – A level results - August 2019

Congratulations to our 6th form students today who have celebrated their successes in A-level and AS level results. This marks yet another year of excellent academic and personal achievement.

We are thrilled with the success of our students A-Levels results, particularly in Mathematics with 87.5% achieving A*-B grade. It has been a busy morning and we are pleased to see so many of our students achieving their expected university and apprenticeship places. Many students have secured top degree level courses in subjects such as Biomedical Sciences, Law, Business Management, Languages and many more in universities such as Durham, Leeds, Manchester and Keele amongst others. These results demonstrate that the school is continuously providing high-quality education to students in Ellesmere Port and the wider area and more importantly that students feel challenged and supported to achieve their very best.

In Art, Biology, Chemistry, Drama, English Language, English Literature, History, Mathematics, Physics, Psychology and Spanish and Theology between 50% and 100% of our students achieved A*-C grades. The results in these subjects were a real strength of the school demonstrating the hard work and effort put in by both staff and students.

We want to congratulate all our students and wish them well as they take up their places at university, on apprenticeships, in employment, or on a gap year. Some of our students were able to overcome challenging personal circumstances to achieve excellent results. This was partly due to the support and guidance given to them by the school, and due to their hard work, so well done to them as well.

Congratulations also to our Year 12 students who achieved some excellent AS results; we wish them well for their final year at the school.

Mrs Caroline Vile
Headteacher
