## Headteacher Message

Dear Parents and Guardians,

I hope you are keeping well.

We were very impressed with the way our students conducted themselves during Wednesday's school Remembrance Service and would like to thank our staff for their support with this.

We are very excited to announce that we have been shortlisted for two awards for our work last year:

- Catering Pods

Towards the end of November, two pods like these will be installed to provide hot grab and go food within our cluster group areas. They will be a great asset to the school and we look forward to seeing them in action.

- **Work experience opportunities at Airbus Aerospace**

## Airbus Aerospace Work Experience | Springpod

Airbus is an international reference in the aerospace sector. They design, manufacture and deliver industry-leading commercial aircraft, helicopters, military transports, satellites and launch vehicles, as well as providing data services, navigation, secure communications, urban mobility and other solutions for customers on a global scale.

[www.springpod.co.uk](http://www.springpod.co.uk)

During this free two week virtual work experience programme students will meet (virtually) representatives from some of the key teams within their business from space to civil aviation. They will learn about fundamental elements of Airbus's business including sustainability and manufacturing. Finally they will complete work and assignments to get an understanding of what life at Airbus is like.

The programme involves around 10 hours of activity. Students can complete the work over 2 weeks meaning they can fit it around their schedule. There are live workshops but if they are unable to attend these a recording will be added.

The programme will take place between 30/11/2020 and 13/12/2020. Students do not need to be available full time during those dates but they do need to be able to complete 10 hours worth of activity over the two weeks.

### **What's involved:**

During this virtual work experience programme students will cover the following areas:

- Space – Meet a member of Airbus' space team.
- Wing Manufacturing at Broughton – Take a look at manufacturing at our Broughton base.
- Sustainability – Explore the work of Airbus' sustainability team.

- **Cheshire and Warrington Pledge Volunteering Fair - Wednesday 18<sup>th</sup> November**

On Wednesday 18<sup>th</sup> November, The Pledge are hosting a Volunteering Fair which would be perfect for Year 9 to 13 students and/ or parents and carers.

This is a free event which will feature at least 15 volunteering organisations showing how you can get involved in volunteering in Cheshire and Warrington during these Covid times. This will enable students to:

- enhance their CV and/ or UCAS Personal Statement
- develop their employability skills
- complete their Volunteering component for Duke of Edinburgh
- give something back.

The event will allow you to speak directly with these organisations and sign up to get started. You will also hear from two apprentices who will explain how volunteering helped them to get their first job.
