Headteacher Message

Dear Parents/Carers,

It was lovely to celebrate the Y13 Prom at Brook Meadow last week and now we look forward to the presentation evening on Thursday 7th July at the Civic Hall and we look forward to seeing many parents there.

I wish you all a very restful and relaxing weekend.

Mrs Vile

PROM NIGHT

Year 13 at their Prom at Brook Meadow, Willaston

I wanted to say a big thank you to all the staff who attended the Year 13 prom last night. A great time was had by all. As the students had not been able to have their Year 11 prom due to COVID restrictions they all came dressed in their Year 11 prom outfits and they looked amazing. The DJ at the venue commented how lovely and polite our students were and how they were a credit to us. He said they had been amazing all night. Thanks again and enjoy the 4 day break.

Lorraine, Louisa and Lauren

(all levels)

Automation Engineer

SCS Railways are looking for Systems Engineers from all industries and backgrounds to join the team working to deliver the HS2 London Tunnels project. HS2 is the UK's new high speed rail network, and the scope of works for SCS Railways includes bored tunnels, shaft sinking, bridge demolition and reconstruction, utilities diversions, earthworks and the construction of site compounds between Euston to West Ruislip.

At Silverstream, we have successfully developed and deployed a market-leading clean marine technology solution over the last ten years.

This key role is to provide Marine Control & Automation (C&A) subject matter expertise to the Silverstream Technologies business. You will be involved in a wide range of activities from developing and maintaining the core control and automation solution, applying it to projects and supporting the in-service fleet.

We have a number of unique opportunities for Software Engineers across our growing Cyber Security and Electronic Warfare portfolios. We collaborate with Government Agencies and the Defence sector on the next generation of state of the art Cyber Defence solutions, such as Government grade data encryption, as well as protecting against loss of life with our Force Protection technology (Electronic Countermeasures).

MORE JOBS FOR YOU

Electronics Engineer Roles

Breakthrough technology is vital for strengthening the UK's Defence & Homeland Security. As an Electronics Engineer at Awerian, you will be at the forefront of this innovation race by helping to defend and protect the UK from the latest technological and cyber threats.

Your work will have a real-world impact. It's a fantastically challenging, varied and agile role. You'll see ideas become a reality as you create prototypes through Awerian's rapid approach to design and implementation.

Weapons Director Instructor CAT III

BAE Systems is the UK Government's nominated Prime Contractor under the Government-to-Government arrangements that are in place to provide equipment, support and training to Saudi Arabia. We provide maintenance of Royal Saudi Air Force aircraft and train RSAF personnel safely in a training environment in how to use their aircraft, equipment and weapons.

The Job Holder is to have Military Operational and Training background as a WD in an Air Defence environment.

Tenure-Track Associate Professor/Assistant Professor

Applications are invited for appointment as Tenure-Track Associate Professor/Assistant Professor in the Department of Industrial and Manufacturing Systems Engineering (Ref.: 512119), to commence as soon as possible on a three-year fixed-term basis, with the possibility of renewal and consideration for tenure before the expiry of a second three-year fixed-term contract.
