

Caring For Others
Parable of the Good Samaritan
Luke 10:25-37

- How to meet the needs.
 - Compassion.
 - Serving people where we are and where they are.
 - Treating their wounds and suffering.
 - Working together as a team.

The drive was brief and the conversation limited, but oh, what a legacy of love! Father never read to me from the Bible about the good Samaritan. Rather, he took me with him and Uncle Elias in that old 1928 Oldsmobile and provided a living lesson I have always remembered.
- Author: Thomas S. Monson

Our Vision...
Exemplary behaviour and personal standards.

Our Vision...
At the heart of the community.

Our Vision...
Keeping children safe in education.

Headteacher Message

Dear Parents/Carers,

Thank you for a wonderful welcome evening for our new year 7 students and parents and our first presentation evening in three years celebrating the achievements of all our students. The Year 11 Prom on Friday evening is gearing up to be a very exciting night and we look forward to Sports Day next Wednesday.

I wish you all a very restful and relaxing weekend.

Mrs Vile

Ellesmere Port Catholic High School

- Sports Day is Wednesday 13th July 1-3pm
- Pupils will need to attend the day in full and correct PE kit
- Make sure pupils have plenty of water and suncream on the day as the weather is looking good.
- It is a school event however parents are not to attend.
- There will be an ice cream van on the day, pupils will need their own money if they would like to have one.

Thank you very much for your help with this.

Thank you to all staff that supported the year 10 students in completing their projects and sessions for their virtual work experience. It was very much appreciated.

Kind Regards

Mrs C Murphy
Leader of Careers and Personal Safety
Teacher | Creative Digital Media
CEOP Ambassador

Festival for the Future

During July, each of the borough's four museums – Grosvenor Museum, Stretton Watermill, Lion Salt Works Museum and Weaver Hall Museum - will host a touring 'eco' exhibition designed by West Cheshire Museums. Featuring historic items from its collection, the exhibition will tell a compelling eco story, showing how people in the past led very sustainable lives. Virtual reality technology will show what the future might look like if humanity continues its disposable 'one-use' lifestyle.

Each venue will feature 'Earth Giants' created by students from Cheshire College in conjunction with Chester artist, Russell Kirk. The aim is to show that big issues, like climate change, requires 'Big Thinking'.

A full programme of activities taking place as part of the festival can be found at:

<https://westcheshiremuseums.co.uk/festival-for-the-future/>

Schools across the borough are encouraged to promote the festival through their communication channels.

Also attached is a copy of the Festival for the Future logo design and an image of a whale made out of recycled goods at the Grosvenor Museum for you to use in your newsletters or social media to help promote the event.

Professor/Assistant Professor

Breakthrough technology is vital for strengthening the UK's Defence & Homeland Security. As an Electronics Engineer at Awerian, you will be at the forefront of this innovation race by helping to defend and protect the UK from the latest technological and cyber threats.

Your work will have a real-world impact. It's a fantastically challenging, varied and agile role. You'll see ideas become a reality as you create prototypes through Awerian's rapid approach to design and implementation.

Apply today >

BAE Systems is the UK Government's nominated Prime Contractor under the Government-to-Government arrangements that are in place to provide equipment, support and training to Saudi Arabia. We provide maintenance of Royal Saudi Air Force aircraft and train RSAF personnel safely in a training environment in how to use their aircraft, equipment and weapons.

The Job Holder is to have Military Operational and Training background as a WD in an Air Defence environment.

Apply today >

Applications are invited for appointment as Tenure-Track Associate Professor/Assistant Professor in the Department of Industrial and Manufacturing Systems Engineering (Ref.: 512119), to commence as soon as possible on a three-year fixed-term basis, with the possibility of renewal and consideration for tenure before the expiry of a second three-year fixed-term contract.
