Keeping children safe in education.

## *Headteacher Message*

Dear Parents/Carers,

We had a very successful Sports Day and Showcase evening this week and now look forward to the last week of the Summer Term. All information for the Autumn term will be emailed to parents at the end of this week, and will be on the website. [www.epchs.co.uk](http://www.epchs.co.uk)

**Please note the school will close on Friday at 1pm.**

*Mrs Vile*

**Festival for the Future**

During July, each of the borough's four museums – Grosvenor Museum, Stretton Watermill, Lion Salt Works Museum and Weaver Hall Museum - will host a touring 'eco' exhibition designed by West Cheshire Museums. Featuring historic items from its collection, the exhibition will tell a compelling eco story, showing how people in the past led very sustainable lives. Virtual reality technology will show what the future might look like if humanity continues its disposable 'one-use' lifestyle.

Each venue will feature 'Earth Giants' created by students from Cheshire College in conjunction with Chester artist, Russell Kirk. The aim is to show that big issues, like climate change, requires 'Big Thinking'.

A full programme of activities taking place as part of the festival can be found at:

<https://westcheshiremuseums.co.uk/festival-for-the-future/>

Schools across the borough are encouraged to promote the festival through their communication channels.

Also attached is a copy of the Festival for the Future logo design and an image of a whale made out of recycled goods at the Grosvenor Museum for you to use in your newsletters or social media to help promote the event.

## Professor/Assistant Professor

Breakthrough technology is vital for strengthening the UK's Defence & Homeland Security. As an Electronics Engineer at Awerian, you will be at the forefront of this innovation race by helping to defend and protect the UK from the latest technological and cyber threats.

Your work will have a real-world impact. It's a fantastically challenging, varied and agile role. You'll see ideas become a reality as you create prototypes through Awerian's rapid approach to design and implementation.

**Apply today >**

BAE Systems is the UK Government's nominated Prime Contractor under the Government-to-Government arrangements that are in place to provide equipment, support and training to Saudi Arabia. We provide maintenance of Royal Saudi Air Force aircraft and train RSAF personnel safely in a training environment in how to use their aircraft, equipment and weapons.

The Job Holder is to have Military Operational and Training background as a WD in an Air Defence environment.

**Apply today >**

Applications are invited for appointment as Tenure-Track Associate Professor/Assistant Professor in the Department of Industrial and Manufacturing Systems Engineering (Ref.: 512119), to commence as soon as possible on a three-year fixed-term basis, with the possibility of renewal and consideration for tenure before the expiry of a second three-year fixed-term contract.

Click 'Apply Today' to find out more.
